

Specific Target

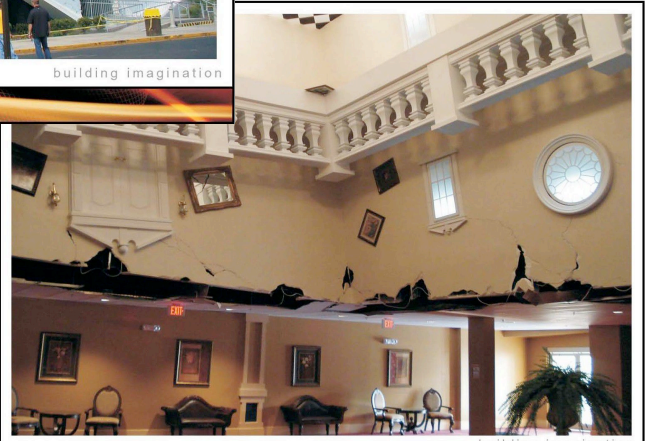

Application: THEME PARK & MUSEUM DISPLAYS

STUDIO Y CREATIONS

What's Up is Down at WonderWorks Orlando, Florida

This building at WonderWorks has landed upside down following a Tornado. That was the design mandate given to Studio Y Creations in Calgary, Alberta. You enter the building through the original roof. The entire outside of the building is sprayed with LINE-X. (Notice how the cracked pillars and fractures in the walls have been intentionally designed for a totally realistic look.)
